NO. 69

CRAB ORCHARD.

J. H. Stephens has rented the old Roberts farm of A. H. Bastin, and will move to it Jan. 1. J. F. Hoidam will move back to his home here the first of the year. Alex Beazley will move his family to Lancaster. Mrs. Laura Moore has left for Chicago to live. Mrs. Coffey, of Rockcastle, has purchased the cottage on Stanford street of J. H. Cummins and moved to it. W. K. Buchanan has rented the cottage of Mrs. Hunter near the depot and will move at once. Mrs. M. E. Fish goes to Sanford, Jan. 1. Mrs. Sue Holmes, of Elkton, is visiting J. H. Collier. Mrs. James P. Cummins, of Stanford, is with her parents, Dr. and Mrs. J. D. Pettus. The sick are all convalescent, except Miss Lillian Buchanan, who still remains in a critical condition. Mrs. Susan Bywaters left Monday night for her home in Idaho. Heavy frosts in this locality is reminding us that the "melancholy days are over."

BY ANOTHER CORRESPONDENT.

Only a few patients are at the Keeley Institute, but several are expected this week.

Levi Elder had one of his hands badly cut while handling a piece of glass, and had to give up his place in W. E. Perkins' store for a few days.

J. W. James is enlarging his distillery and putting in new machinery prior to starting up in a few days. He will ship a car-load of his whisky to California this week.

With four hotels the visitors to Crab Orchard ought to be well attended to. You can be well attended to either at the Springs Hotel, W. A. Beazley's, Curtis Gove's or A. H. Bastin's.

Crab Orchard has the blackest barber in the state in Samuel Blakemore, who has been dubbed "Snow Flake." Robert Fish, the other tonsorial artist, is not so white, but both are good barbers.

Miss Pearl Phillips, of your town, is doing nicely with her millinery store. Besides doing her own trimming and waiting on the trade, she attends to the telephone exchange, and is consequently kept pretty busy.

There are numerous vacant lots in our town where houses could be built, which would add materially to the appearance of the "city of the East End." Can't somebody buy the grounds where the brick hotel and the Harris House stood and build?

A good crowd attended W. T. Stephenson's sale Friday but bidding was so slow the sale was "declared off." Mr. Stephenson says Jordan Peter Chandler, the auctioneer, was in such a hurry to get to dinner he did not give the bidders a chance to buy.

The race for police judge is winding warm and it would take a prophet to tell which will be victorious, present incumbent J. B. Brooks or John Edmiston. Little interest is manifested in the race for trustees and not much in the congressional race, except by the rads, your correspondent is sorry to say.

Entries for the Kentucky Derby, Clark stakes and Kentucky Oaks for 1899 have closed with the following number of entries: Derby, 132; Clark stakes, 119; Oaks, 81. The Derby is a mile and a quarter and is worth \$5,000; the Clark is at one mile and an eighth and is worth \$4,000; the Oaks is at one mile and a sixteenth and is worth \$3,000.

For dehorning, take two parts of caustic soda, one of kerosene and one of water. First stir the former two ingredients together thoroughly, and then add the water. After trimming the hair away from the horn of the young calf, apply carefully with a rubber cork. See that it does not run down the face.

Old Charley Moore is in trouble again. He is under arrest, with his publisher, J. E. Hughes, on an indictment found in the U. S. court at Cincinnati, charging that his paper, the Blue Grass Blade, published and circulated, while in Cincinnati, a disgusting article advocating free love.

Gen. Gordon announces that the next encampment of Confederate Veterans will be held May 10-13, at Charleston, S. C. There are now 1,170 camps and applications for 200 more.

THE BEST PLASTER.

A piece of flannel dampened with Chamberlain's Pain Balm and bound on to the affected parts is superior to any plaster. When troubled with a pain in the chest or side, or a lame back, give it a trial. You are certain to be more than pleased with the prompt relief which it affords. Pain Balm is also a certain cure for rheumatism. For sale by Craig & Hoeker, Druggists.

I desire to thank our Doctor, our neighbors and friends, who gave their ready sympathy and help during the illness of my wife and daughter. Their kindness shall always be held in grateful remembrance by myself and my daughters. J. W. Eubanks.

THE HAVANA LIMITED.—The first American railway to announce train service for the special benefit of travel to the West Indies has been heard from. The Queen & Crescent Route are announcing a fast train known as the "Florida and Havana Limited." It will go into service from Cincinnati to Tampa, Jacksonville, Miami, Mobile and New Orleans. This exponent of the genuine American idea of getting into the field early will be a complete vestibuled service, with diners, observation cars, wide vestibules, electric headlights, and all the paraphernalia of the modern railroad train. It is chiefly to be marked as being first in the field for the new territory which is just coming under the protection of the greatest flag on earth. Train will make fast time to ports named and will connect with fine steamer service to various ports in Cuba, Porto Rico and Jamaica. It marks a new era in rail-roading in this country.

Clarence Coleman writes of the Middleboro Company, of the 2d regiment, to which he belonged as follows: I want to say this of Co. H. It had more men than any one company in the regiment, had less men in the hospital, had less men in the guard-house, always showed up better at dress parade, was second to none in drilling and was the only company in the Second Kentucky that never lost a man, while the death rate in the other 11 companies averaged from two to five men. The above can not be said of any other company. Just after Co. H. was examined the surgeons said: "It is certainly a fine lot of men," and they were physically.

Some of the 2d Regiment will recruit or are thinking so. Some will get into the volunteer regiments, while the majority that re-enlist will try the regular army, where a man is treated white. There is a recruiting office over the post-office at Lexington. Most of the boys will try the 22d Infantry.

WAR ECHOES.

The Deans, father and son, both in the 1st Kentucky, died of typhoid fever.

Gen. Dodge and some of his white-washing commission are whitewashing at Lexington.

The Porto Rican postal commission has returned, having established 80 offices in the colony.

The Louisville Legion, according to latest estimates, will leave Porto Rico for home about November 15.

One steamer alone that took Spanish soldiers from Havana back to Spain, had 72 deaths on the voyage.

United States Postal Agent Valle, at Manila, reports that Luzon is rich in magnificent prospects and possibilities.

An undertaker has sailed for Santiago to examine the remains of Chas. D. Jacob, Jr., of Louisville, who died a hero's death.

The Lexington Herald subscribes \$250, one fortieth of the \$10,000 necessary to keep the troops in Lexington until they are ordered to foreign service.

In one company alone of the 5th Missouri, 49 men claim to have contracted diseases since they have been in the army due to damp, cold quarters and impure water.

Before Co. L of the 2d regiment were mustered out, Sergt. Al Curtis, in behalf of the Richmond members of the company, presented Capt. Sam M. Dancan with a handsome gold medal.

Lieut. Holson is at Washington trying to induce the naval construction board to authorize an attempt to raise the Colon and Venzona. He wants \$1,000,000 for the purpose and is confident he can succeed.

Because all passes were to be limited from 9 A. M. to 4:30 P. M., the 3d Kentucky, 16th Indiana and 12th New York at Camp Hamilton decided to stack arms and refuse to drill without the order being modified. The officers heard of it and postponed the trouble by declaring the dress parade off.

The insurgents have gracefully yielded to the demands of the Americans and have withdrawn from the territory surrendered to Dewey and Merritt. While Aguinaldo's conduct is not entirely satisfactory, Dewey's firmness has made an impression, and there is little danger of a conflict with the Filipinos.

While going to call on some young ladies near Camp Hamilton, Privates Lantz, Peck and Swadley, of the 2d Missouri, were fired on and the first named seriously wounded. The others caught a buckshot or two, but were not seriously injured. There is a suspicion that they were hunting for chickens instead of girls.

Gen. Joseph C. Breckinridge is said to feel greatly humiliated at the action of the president in ordering him mustered out of the volunteer service. When Gen. Breckinridge reached Washington, he called upon the president, but was not received. Gen. Breckinridge's loss of favor is due to his honesty in making a truthful report of mismanagement of camps and campaigns.

According to the reports from Paris, the Spanish commissioners have now agreed to the two clauses of the protocol which declare that Spain relinquishes all sovereignty over Cuba and coles to the United States Porto Rico and one of the Ladrone Islands, but if any disagreements arise, and the two nations were unable to come to a satisfactory decision, this agreement on the first two provisions are nullified. This seems to be child's play.

A SURE SIGN OF GROUP.

Houseness in a child that is subject to group is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the groupy cough has appeared, it will prevent the attack. Many mothers who have groupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by Craig & Hoeker, Druggists, Stanford.

William Fielding, of Elkhart, Ind., is 92 years old and has never smoked, chewed, touched an intoxicant and has only heard three sermons, one of which was his mother's funeral discourse.

The nuellage on postage stamps is made as follows: Gum dextrine 2 parts; water 5 parts, acetic acid 1 part. Dissolve with heat and add 1 part of 90 per cent. alcohol.

The grand jury at San Francisco has indicted Mrs. Cordelia Borkin for the murder of Mrs. John P. Dunning, of Dover, Del., whom she killed with poisoned candy sent through the mail.

Galium is the most valuable metal. A pound of it is worth \$68,600, while a pound of gold is only worth \$300. Aluminum is only worth 34c.

MATRIMONIAL MATTERS.

James Turpin, a widower of 52, and Miss Bertha White, 19, married in Madison.

T. G. White, of Winchester, and Miss Daisy D. Potter will be married at Mr. C. A. Rodd's, at Crab Orchard today.

Thomas Trabue, of Washington, Ind., drank carbolic acid when he heard that his sweetheart had accepted a ring from her other beau.

W. H. Moore, 31, and Miss Mary Swearingen, 37, were married at Covington. Evidently the bride didn't want to be said that she died an old maid.

L. E. Craven, whose wife got a divorce from him, jumped from the Jeffersonville bridge at Louisville in a fit of despondency and ended his troubles in a watery grave.

Miss Tralse Mainz got a verdict of \$12,500 against B. B. Lederar, a wealthy jeweler of Providence, R. I., for breach of promise. She asked for \$50,000 to heal her wounded heart.

John Tracey, of Shelby county, has married his mother-in-law, Mrs. Frances Findee, who is just 22 years older than he is. Mrs. Findee has a son 20 years older than her husband.

At Huntington, W. Va., Helen Kling and Walter Dunn, who were sweethearts, quarreled at Miss Kling's home, when she bit off an inch of his tongue. Wonder how she got it in her mouth?

When John Smith accused his sweetheart, Miss Alice Gilliam, of receiving attentions from other men, she went off and took strychnine after writing this: "John, I die because I love you."

In Madison, Mr. and Mrs. Geo. W. Park, who was Miss Patsy Collins, will celebrate their golden wedding on Nov. 16th, at "Woodland Park," near Spedwell. Only four persons survive who witnessed their marriage.

Rev. Wm. May, of Perryville, is said to have married 2,300 couples in the last 60 years, besides getting spliced three times himself. He is 88 years old, has 12 living children, 50 grandchildren, 20 great grandchildren and two great great grandchildren.

John Kennedy, a 17-year-old boy, fatally shot May Peck, aged 15 years, at Knoxville, and committed suicide by shooting himself through the head. Kennedy called at the girl's home and reprimanded her for going with another boy. The girl refused to forsake her second love, whereupon Kennedy committed the deed.

Miss Glenn Bibb, the handsome sister of Mrs. Sam M. Owens, and Mr. W. H. Collins, of Memphis, were married at the Leland Hotel, Lexington, last week. Miss Bibb met Mr. Collins while she was visiting at Hartford and it was a case of love at first sight. After the ceremony, Mrs. Collins came over to Sheriff S. M. Owens' to spend a few days, while her husband went home to prepare for her coming. The bride is a handsome brunette, popular and accomplished, and her husband is said to be a splendid young man, highly thought of by the L. & N. railroad company, in whose employ he has been for a number of years.

Miss Winnie Davis left a will bequeathing to her mother "everything I have, both real and personal property, and any returns that may come from my literary work, any stock, bonds or money of which I die possessed. I beg her to give a remembrance out of my jewelry to my dear cousin, Anna Smith, and to my dear old nurse, Mary Ahearn. My dear mother is to judge what she would like to give to my dear sister, Margaret Hayes, and her children, to remember me by." The instrument is dated Feb. 11 last.

The biggest industrial "combination" or trust, ever organized, was born Friday. It is the Continental Tobacco company, which comprises the eight large plug tobacco manufacturing firms of America. This trust is capitalized at \$75,000,000. It is the combination of tobacco manufacturers regarding which so much has been guessed at in public prints within the past couple of months.

Serious charge. A. J. Fish is under arrest at Lexington charged with robbing S. M. Tudor, of the 2d Kentucky, of \$45, or rather taking it from him and refusing to give it up when it was demanded. When searched at police headquarters several pocket books were found on him and nearly \$100 in money. Fish denied the charge.

Gov. Tanner is a worse old demagogue than his predecessor. Before an audience at Madison, Ill., he said if another attempt was made to bring foreign labor into the State, he would meet the train at the State line and shoot it to pieces with a Gatling gun.

The Knights of Pythias Grand Lodge ordered that the constitution be amended so that an orphan's home may be provided. Each member will be taxed 50 cents for five years. The amendment will have to lie over until next meeting.

The State College foot ball team defeated the Louisvilles 16 to 0 Saturday.

BLOOD POISONING.

A Nurse's Experience.

There are thousands of people suffering from blood poisoning who have almost begged themselves in buying medicines from which they have obtained no help. There are thousands of others who first or last have tried Dr. Ayer's Sarsaparilla and found perfect healing. One of these others, Mrs. A. F. Taylor, of Englewood, N. Dak., relates the following experience:

"About two years ago, I nursed a lady who was suffering (and finally died) from blood poisoning. I must have contracted the disease from her, for shortly after her death, I had four large sores or ulcers, break out on my person. I doctored for a long time, both by external application and with various blood medicines; but, in spite of all that I could do, the sores would not heal. They were obstinate, very painful, annoying, and only getting worse all the time. At last, I purchased six bottles of Dr. Ayer's Sarsaparilla, thinking I would give it a thorough trial. Before the first bottle was taken, I noticed a decided improvement in my general health; my appetite was quickened, and I felt better and stronger than I had for some time. While using the second bottle, I noticed that the sores had begun to look healthier and to heal. Before the six bottles had been taken, the ulcers were healed, the skin sound and natural, and my health better than it had been for years. I have been well ever since. I had rather have one bottle of Dr. Ayer's Sarsaparilla than three of any other kind."

This is but one example of the remedial value of Dr. Ayer's Sarsaparilla in all forms of blood disease. There is no other blood medicine that cures so promptly, so surely and so thoroughly. After nearly half a century of test and trial, it is the standard medicine of the world for all diseases of the blood. Sores, ulcers, boils, tetter, rheumatism, scrofula and every other blood disease is curable by Dr. Ayer's Sarsaparilla. The success of this remedy has caused many imitations to be put on the market. Imitation remedies work in imitation cures. The universal testimony is that "one bottle of Dr. Ayer's Sarsaparilla is worth three of any other kind." If you are interested in knowing more about this remedy, get Dr. Ayer's Curebook, a story of cures told by the cured. It is sent free on request by the J. C. Ayer Co., Lowell, Mass. Write for it.

THE INTERIOR JOURNAL

STANFORD, KY., - Nov. 1, 1898

W. P. WALTON.

DEMOCRATIC TICKET.

For Congress,

GEORGE G. GILBERT, ☐

WITH SUPPLEMENT.

In his speech at Richmond, Hon. G. G. Gilbert is said to have championed the new election law and to have declared against the acquisition of the Philippines. The Interior Journal is an original expansionist, but as Mr. McKinley now proposes to acquire the Philippines, it is decidedly against taking them in. His proposition is to assume a large debt hanging over the islands and pay Spain for them besides. We do not need them that bad. This government took Luzon by force of arms and could have taken the whole group had not Spain thrown up her tail and hallooed "enough." McKinley's proposition therefore is the height of folly and stupidity and is worthy only of a man who wants to do something and does not know how. The United States had debt enough before the war and the several hundred millions that it has added and the pensions it will have to pay for the men ruined by inhuman treatment are about all she can stand. We are for holding all we took by armed force, but this government is not in condition to acquire territory by purchase and the people will never endorse so illotie a policy as McKinley proposes.

JUDGES PRYOR and Holt, both ex-chiefs of justice, indulged in some strong personalities when the Goebel law came up before the court of appeals, during which the former accused the latter of making statements, which were untrue. The court called them to order and the case was finally submitted without argument, as Judge Holt claimed he was only acting as a private citizen, the court holding that it did not care to hear one, unless the other side was represented. Attorney General Taylor was permitted to file a brief in the case not later than today. There is little doubt that the court will declare the election law constitutional, the same agreed facts as in the prison commission law having been presented.

CAPT. CHANLER, who was honorably discharged from the army to accept the democratic nomination for Congress in the 14th New York district, said in his first speech that Bro. Abner McKinley made a pot of money out of clothing contracts for the army by getting big prices for clothes that were simply rotten. Chanler, who is as good as elected, says he will have that and other army contracts made like most of the appointments for partisan purposes, investigated and there will be no whitewashing about it. If Congress is republican, however, he will be able to do nothing. Help to give the body to the democrats by voting for Gilbert.

THE Shelby Sentinel, which has been run by Poynter & Shinnick as a gold bug paper, has been sold to Messrs. James M. Guthrie and M. O. Sullivan and will hereafter keep in the middle of the democratic road. Those democratic papers, which refused to accept the dictation of the party's representatives in convention, regularly called and properly elected, seem to have as hard a row to hoe in Kentucky as republican sheets, nearly all of which are on the verge of starvation.

THE State board of health finds that Osteopathy is curing cases that the regular practitioners had failed to give relief and it raises a row with the new system at once. An order citing the manager of the institution at Franklin to appear before the board was met by an injunction granted by Judge Settle, who seems determined that the Osteopaths shall have a fair show, and the board is finding that it is not the entire State.

In order that the much misunderstood and much abused Goebel election law may have an inning, we present in a supplement sent with this issue, the unanswerable speech of its author delivered at Glasgow. Read it and if you are not convinced that its passage was a necessity you would not be convinced though one rose from the dead.

THE president has already issued his proclamation naming Nov. 24th as Thanksgiving day. The reason of his procrastination doubtless is due to the fact that unless he did so now he might never do it at all, since the prospect is that he will have precious little to be thankful for after the election.

A BOSTON physician makes the statement that every woman has either crooked arms or crooked legs and a Boston editor says that gymnasium professors corroborate the opinion that women are knoed-kneed, how-legged, too lean, too fat, or only partially developed, and a straight arm is very rare. These libelers evidently think that the sky comes down to the ground all around the Hub. Boston women are doubtless built as they describe, but they are not the only peaches on the tree. Out here in Kentucky alone there are scores of women who would make even the Statue of Venus de Medici blush to find it is shapeless in comparison with them.

THOSE who think Mr. Watterson is idle when nothing from his pen appears in the Courier-Journal are not aware of how much work he really does. He has recently completed a book on Abraham Lincoln, an article from his pen appears in nearly every issue of the Youth's Companion, he lectures on Lincoln and other subjects while not otherwise engaged and now an Ohio publishing house sends us a prospectus of a history he has just written of the Spanish war. A wonderful man indeed is the great Southern editor.

THERE is always something interesting in the Owensboro Messenger, no matter how dull the times. Its editor has views and the ability to express them cogently and entertainingly and his democracy is as pure as the fountain of life. Urey Woodson deserves more credit than any man in the State, and those who would belittle his efforts, belittle themselves. If you want a real dyed-in-the-wool, blown in the bottle democratic paper, subscribe to the Owensboro Daily Messenger.

HIS mother left Wm. Wagner, of Philadelphia, \$200 to be spent entirely in going to the opera, but if Billy is an up-to-date beau and takes his girl with him, he will soon get away with the old woman's money. Besides the tickets, a hack has to be hired and flowers bought, the evening's fun winding up with a wine, or some other kind of a supper. That's the way the money goes, and that's the reason so many young men with meagre salaries learn to speculate.

IT is exasperating to a newspaper man to get interested in a report of the sale of fine stock and then come to a wind-up which reads, "price private."—Covington Commonwealth. You are right. The item is valueless without the price being given and the INTERIOR JOURNAL makes it a rule never to gratify the vanity of traders by giving reports of their transaction unless they state the consideration attached.

DEMOCRATS need not lay the flattering unction to their souls that because they can observe no activity in the republican ranks that they are not organized and will not go to the polls. The republicans are always organized and they always vote every mother's son of them. Let the democrats be as patriotic and the white men of the district will be represented in the next Congress.

IT was the irony of fate that Col. G. E. Waring, the sanitation expert, sent to Havana to look after the city in that respect, should have contracted yellow fever while on duty. He died in New York Saturday and in order to prevent a spread of the disease, his body was cremated in three hours after his death and his house fumigated and disinfected.

THE Louisville Commercial is taking each Kentucky district separately and in laudatory articles of the nominees, convinces itself that republicans are going to be elected in each. Fortunately for the good of the State, Editor Gelati does not know whereof he affirms, since Hanna's money can't buy the elections under the Goebel law.

THE resignation of Adjutant General D. R. Collier and the appointment of Col. Wilbur R. Smith and the resignation of Smith followed by the reappointment of Collier, is one of the funny things, of which the public is not sufficiently acquainted to laugh.

THOUGH not intended for him, an excellent picture of Editor Logan, of the Louisville Times, appeared in the issue of Friday. The eulogized statue, the mustache, the hat and the general appearance indicate that Bro. Logan "got for that picture."

EDITOR R. W. KNOTT, of the Louisville Post, has been indicted for criminal libel in slandering the Board of Public Works. An indictment against him is now in order for slandering the democratic party.

FRANCE is right. England is too much for her to tackle. She has accordingly, virtually given up her claim to Fashoda and war's wrinkled front appears to be smoothing out.

THE Logan County News, under the management of S. W. Linebaugh, is one of our best exchanges. May it live long to preach and practice true democracy.

SAM JONES is holding another meeting in Hopkinsville. It must be a hard job to get Editor Meacham straight and keep him so.

THE Louisville Dispatch is evidently preparing to get out of the Post's quarters by the way it berates that paper for its "cowardly, contemptible and dirty" fight against Turner. The Post claims that Turner has a Negro typewriter, and in its issue Saturday printed their photographs side by side, a meaner advantage than even a republican paper had taken.

THE Commercial very much mistakes the attitude of the voters of the Eighth district if they seriously consider the namby pamby Mr. Gilbert as near the equal of the energetic George M. Davison.—Louisville Commercial. You are very much mistaken. Indeed, you could not be more so if you had burned your shirt.

POLITICAL POINTS.

Madison county democrats claim it for Gilbert by 200.

G. A. R. men of Fleming and Carter counties are in revolt against Pugh, the republican nominee for Congress in the Ninth district.

Rev. Tom McGary, a colored preacher of Owensboro, has renounced the republican party, and says he will henceforth vote the democratic ticket.

The democratic congressional campaign committee claims that the next House will be democratic by 24 to 26 majority, conceding California to the republicans.

Chairman Babcock, of the republican congressional committee, says the republicans will have a majority of 27 in the next House. They now have a majority of 57.

The democratic managers in New York claim the State for Van Wyck by from 75,000 to 100,000. The New York Herald's forecast shows Van Wyck in the lead.

Secretary of State Hay expresses the opinion that the treaty of peace will be signed by December 1, and intimates that we will keep the Philippines and assume the debt of the islands.

It is said that President McKinley will take about 5,000 offices out of the civil service list about Thanksgiving. All the deputy collectors, pension surgeons and deputy marshals are in the list.

It is reported that the Bradley and Hunter factions of the republican party will form a republican alliance in the near future. If this is true, we will wager that Bradley will be the head of it.

The N. Y. World says: The democrats in the next House of Representatives will probably have a clear majority over the republicans, fusionists and populists of five, their possible plurality over the republicans being 20.

The governor of New Mexico again urges the admission of that territory to Statehood. He estimates the total population of the territory now at 282,900, including an Indian population of 25,999. Of the 1,100 men from New Mexico in the war with Spain at least one-half were National guardsmen.

The administration has changed the name of the Krag-Jorgensen rifle, which will be known hereafter as the United States magazine rifle. Thanks! The country will gladly endorse that much of the president's "policy," and if he will change the name of secretary of war, it will indorse him some more.—Louisville Times.

Forewarned is forearmed. The democrats should bear in mind that the republicans, particularly those of the gray gilding variety, are noted for their still-hunt tactics and will try to slip up on their opponents in localities suspected of being apathetic. Let there be a thorough organization in every county of the district, plenty of campaign orators to meet and refute the sophistries of the republican gyrators and we do not fear the result.—Richmond Register.

What War Has Done

We have recovered our own national feeling. Four months ago we were a great mass of people rather than a compact nation, conscious of national strength and unity. By forgetting even for this brief time our local differences we have welded ourselves into a conscious unity such as the republic has not felt since its early days. This consciousness, says a writer in Atlantic, is the keener because of the increased respect that other nations have for us. The United States was never before understood in official Europe, perhaps not even in official England. When the war was begun most of the continental nations failed to conceal their contempt for us; they now respect us as they never dreamed they should. Nor is it only our naval victories that have given the world a somewhat new conception of the United States. Quite as impressive has been the absence of the old-time barbarities of war and of warlike-mindedness. To send home across the ocean a captured army, to parole the officers of a captured squadron, to feed not only the victims of Spanish misrule, but the Spanish themselves, have laid emphasis on other reasons for war than the old reasons of the punishment of enemies and the conquest of tribute-bearing territory. In humanity to the enemy this war is without parallel. Both the power and the aims of the republic are more clearly understood in Europe than a half century of peace could have revealed them, and (in no spirit of boastfulness) we might add the American character, also. It is to be hoped, too, that we have had some effect on the medieval diplomacy of Europe. We have often been called blunt and direct in our diplomacy—no doubt with truth; for European diplomacy is a dietary art, that has always been as conscious as it has usually been mendacious. Ministers have seldom said what they or their masters meant. Now, if the dealings of civilized governments with one another are ever to advance beyond evasion and cunning, the old diplomacy must change to republican directness and frankness. It need not take on discourtesy in manner, but it must speak the truth and keep faith. If we have even in slight measure discredited the old mendacious and dilatory methods we have done something toward furthering political civilization.

THE remains of Miss Carrie Kirkpatrick, who died at a hospital in Louisville, were brought here Sunday and interred in the Logan's Creek burying grounds. She was a daughter of the late Hugh Kirkpatrick, of the Maywood section, was 20 years old and died of consumption.

WILLIE GIVENS, a Boneyville Negro subject to fits, jumped in the fire during one Friday and was considerably burned. Three Hll heard him and went in and pulled him out or he would have burned to death.

LATER.—He died of his injuries Sunday night.

FOR STRALING.—Samuel and William Lambert, of Casey county, were placed in jail Saturday for stealing three spring wagon wheels from a West End party, to await circuit court. The former caught a 25 day sentence and a \$10 fine in Squire W. A. Coffey's court for carrying concealed weapons.

THE Ladies' Aid Society of the Presbyterian church held a praise service Friday afternoon, to which the societies of the other churches were invited. A number of timely talks were made and several excellent papers read by the members. The mite boxes were opened and a collection taken, the proceeds amounting to the nice sum of \$30.

THE docket of the circuit court has been filed for printing by Clerk J. F. Hoidam. It embraces 73 commonwealth cases mostly against liquor law violators, 17 equity appearances and 10 equity cases. There is no murder case on the docket and only three suits for divorce.

HON. R. C. WARREN filed his appointment at Bee Lick Saturday and spoke to a large crowd as the house would hold. There were many present from Pulaski and he got in a good word for Hobson and Tye, while presenting excellent reasons for the election of Mr. Gilbert. Mr. Warren tells us that the people of that section will be as the polls and vote right.

THE Harrodsburg Sayings' report of the fiscal court doings, shows that an appropriation of \$125 was voted to supplement the salary of Commonwealth Attorney J. S. Oasley, Jr., provided each of the other counties, Boyle, Garrard and Lincoln agree to contribute a like sum. These amounts added to what the Commonwealth's attorney usually gets, makes his salary about \$2,000 a year.

ON our editorial page is part of the congressional ballot, showing where to make the cross so as to vote for Gilbert. As there is only one candidate to the party, however, a cross in the square opposite the name will do just as well. After you have marked for Gilbert, be sure and mark in the square labelled "Yes" just below the ticket. That will record your vote for the bond issue, and that all honest men should do, especially those who voted to free the pikes.

FOR TRIAL.—Sheriff B. P. White and Deputies White and Holton, of Clay, came here Sunday for J. B. Barrett and James Baker, who have been here for safe keeping. They have been indicted for complicity in the murder of William Howard and will be tried at Manchester at the present term of court. Tom Baker, who is also in jail here, got a life sentence, it will be remembered, for the murder of White and his case has been taken to the court of appeals. Both Barrett and Baker were an uneasy air when they left. Sheriff White, who was reported shot by Bob Lucas at Manchester several days ago, told an L. J. reporter that there were no grounds for the report and that there was also no truth in the statement sent out that Sam H. Kash had shot a man.

T. R. SLAVIN has been appointed postmaster at Maese, Garrard county.

HON. M. F. NORTH and R. C. Warren will speak at Kinzsville Saturday, Nov. 5th at 3 p. m.

If you want a good hunting coat, hunting material or a good pair of leggings call on W. B. McRoberts.

By the wrecking of a freight train at Nicholasville on the C. S. Sunday, all trains were delayed and Cincinnati mail lost to our people.

THE Eclipse Photo Car is doing some excellent work for our citizens, all who have had work done being highly pleased with the execution and low price.

CANNON.—Miss Luella Cannon, aged 18, died at her home near McKinney, Sunday of consumption and was buried yesterday at the Campbell burying ground near Turnersville.

THE Vanderbilt and University of Cincinnati foot ball teams took horns in Louisville, Saturday, Nov. 12, and the L. & N. will make a rate of one fare for the round-trip from here.

BEHUNNING yesterday the Kentucky Central train for Richmond leaves the depot here at 2:30 p. m. instead of 3:45 as heretofore, a change which the people along the line will appreciate.

ON Thursday next I will have an entire new line of winter millinery, including a number of handsome pattern hats and bonnets. The ladies are invited to come and examine. Mrs. A. A. McKinley.

THE Hallowe'en party advertised by the young ladies of the Presbyterian church, at Owsley's Hall, for last night, was declared off on account of the meeting at the Christian church, which they expected would close Sunday night.

CONTRARY to expectations the 21 Kentucky was mustered out in time to come home to vote and the boys who have suffered at the hands of incompetent and venal officials are going to give the administration a smack by voting for George G. Gilbert.

By voting for the bond issue, you will reduce present taxation and let those who come after us bear some of the burdens that this generation has borne in building and buying pikes. Lincoln county has paid fully half and in many cases nearly all for building the pikes constructed in last score or so of years.

I DESIRE to comment to the public Messrs. J. Nevin Carter and Jack L. Beazley, who have bought my grocery stock. They are splendid gentlemen and will not only sell you goods cheap, but treat you right. Remember I am next door, with dry goods, furnishing goods, shoes, hats, &c., as cheap, if not cheaper than the cheapest. Mark Hardin.

DEMOCRATS you have a patriotic duty to perform next Tuesday. Go to the polls and show McKinley what you think of the way your sons and your friends were murdered by the negligence and incompetence of the officers, he appointed solely for political purposes, by voting for Gilbert, who will in turn, vote for a full investigation of his methods.

THERE seems to be cumulative evidence that there was more desire to nominate Gilbert than to elect him. So far the only work done in this county for him has been done by Hons. R. C. Warren and M. F. North, original McCreary men. If the original Gilbert men have done, are doing or will do any thing to elect him, the fact does not appear. As the election is just a week off, they had better be getting a move on themselves. Unfortunately a nomination is no longer equivalent to election and work and vigilance have to take the place of satisfied assurance.

RELIGIOUS MATTERS.

D. C. YAZELL, aged 83 years, a minister of the Christian church for 50 years, died in Mason county.

ESTHER 8:9 is the longest verse in the Bible and John 11:35 is the shortest. One has 90, the other, two words.

THE Rev. Samuel Matchmore is no more. He died in Philadelphia where he has held a pastorate since leaving Louisville.

The first washing Baptists will dedicate a church at Sinking Valley, Knox county, next Sunday, at which time they will celebrate the Lord's Supper and have a feet washing.

Secretary Miss Anne Shanks asks us to say that the C. W. B. M. will meet in the lecture room of the Christian church this, Tuesday, afternoon at 2:30, instead of Wednesday afternoon.

THE Kentucky synod represents 20,000 communicants. It owns Central University, at Richmond, and academies at Jackson, Elizabethtown and Middlesboro, and a theological seminary in Louisville.

Rev. W. K. Forsythe, of Corbin, on his return from the synod, stopped off with his college-mate, Rev. S. M. Rankin and preached for him at the Presbyterian church Sunday, delighting all who heard him.

At the meeting of the synod at Carlisle, Dr. Harvey Glass, D. D., ex-Gov. McCreary and Rev. Jaspur K. Smith were elected curators of Central University.

versity. Danville was selected as the next place of meeting.

Eld. B. P. Clay, corresponding secretary of Kentucky missions for the Christian church, has been appointed field secretary at Kansas City, Mo., to begin Nov. 1. His work will cover the States of Missouri, Nebraska, Iowa and the Southwest.

Rev. Edmund M. Obrecht, O. C. R., was fully instituted as abbot of Getsemane, Nelson county. Bishop McCloskey conferred the solemn blessing. The ceremonies were elaborate and impressive, and were witnessed by a large assemblage.

Superintendent T. N. Williams, of the Cumberland Presbyterian Church Extension, reported to the Synod that he delivered 121 sermons and 37 addresses, visited 283 families, traveled 13,312 miles and raised \$598.44. The Synod will meet next year in Bowling Green.

While describing the devil in glowing terms, a drunken man entered the church, in which Rev. John Fuegart was preaching at Nelsonville, O., with a pistol almost a foot long. Fuegart, thought it was the limp he was describing, and jumped through the window, taking the sash with him.

Rev. Thomas G. Bosley, aged 89, died at Jeffersonville of paralysis. He was born in Washington county, and was ordained a minister at the age of 20. He preached in every district in the Methodist Episcopal Conference, and was the second oldest pastor in the Kentucky Conference.

Unless there is renewed interest manifested by many additions, it is likely that the meeting at the Christian church will close tonight. Rev. H. A. Northcutt has labored faithfully and well and the series of sermons he has preached in the last three weeks have hardly ever been equaled here and never excelled, and they will be long remembered by all who have had the privilege of hearing them.
